Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

8. SHOWING

The enclosed statement will show that the delay in timely payment of the maintenance fee was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that this petition is being filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The statement must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which the patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

9. PETITIONER(S) REQUESTS THAT THE DELAYED PAYMENT OF THE MAINTENANCE FEE BE ACCEPTED AND THE PATENT REINSTATED.

STATEMENT FOR PETITION UNDER 35 CFR § 1.378(b) SHOWING UNAVOIDABLE DELAY

During the Friday afternoon of February 3, 2012 it came to my attention that patent 6,663,785 as well as two others had expired for failure to pay maintenance fees by a date in December of 2011. Control over this patent (as well as the two others) was transferred from the outside firm that handled its prosecution to nLIGHT internal patent counsel during the middle of 2011 (Jun-Jul). Subsequent maintenance fee reminders or other correspondence from the USPTO would be mailed to nLIGHT directly. However, during the transfer a miscommunication occurred. At some point my registration number (63874) was communicated to the firm. Thinking my registration number was my customer number, the firm changed the fee address for all patents that it formerly handled to customer number 63874. However, the customer number I have associated with my registration number is actually customer number 11014. Consequently, all correspondence related to the patents formerly handled by the firm that may have been sent out by the USPTO after the external-internal firm transition (including maintenance fee reminders) has not been received at the correct address associated with the nLIGHT Photonics customer number 11014 but instead has been sent to the incorrect entity or practitioners associated with customer number 63874. Moreover, no notice to us has been provided by whoever may have received the incorrect mailings. Also included in this petition is a new power of attorney and change of address form so that the patent will be properly associated with customer number 11014 which currently includes association with my registration number 63874. It is for these reasons the delay in paying the maintenance fee was unavoidable, and the petition to accept the late maintenance fee and reinstate the patent is requested.

Respectfully submitted,

/Ethan A. McGrath/
